

**RECYCLING /**  
**DECANTATION TANK**  
*Technical Documentation*

- ✓ **Quenching baths**
- ✓ **Soluble machining**
- ✓ **Working Oils**
- ✓ **Miscellaneous liquids**

**A simple and effective solution for recycling all liquids containing immiscible and / or insoluble particles.**

## Advantages :

### Consummation

↳ Allows the recycling and recovery of fluids, the savings in aqueous cutting fluids and limits waste and disposal costs.

### Maintenance

↳ Very long service life due to no wear and no consumables

### Quality

↳ Allows the elimination of metallic particles (and others) and perfect oil removal.

### Plug n' play

↳ Simple installation with minimal intervention

\* Frame with tank, bubbling management, evacuation valves.
